

## **Melissa Brooks Bio**

I am a Special Education teacher who has been active for nearly 20 years. Daily I am responsible for creating goals and supplying supports that meet the needs of students in the Special Education setting and I accomplish this by developing a student's Individual Education Plan. Life's journey can compare to an IEP it comes with a tailored made Individual Educational plan. Our foremost responsibility is to grow, learn God's lessons, meet the goals and function in purpose.

My objective is to motivate individuals through life's journey. Press pass trauma and severe life stressor that can leave us unraveled, broken and feeling purposeless. While life doesn't come with a cookie cut solution there is an Individual Educational plan established just for you, our responsibility is to learn each lesson, apply and execute. I will share my life's journey and the importance of staying the course, allowing time to build, which is the goal of the IEP. Meeting the goals: building a healthy perception is key, broaden your perspective, it starts by identifying the deficit in one's thinking. Dismantling deficit thinking depends on one's ability to self-reflect and self-correct. My aspiration is to inspire you to Take your, R.O.L.E realizing, one's, life, experience is purposeful.
